To Whom it May Concern

This letter is my personal recommendation for Jacek Podwysocki who worked for Digital Broadcasters Ltd in London as a Web Developer and Executive Technician.

Jacek is hard working, bright and enthusiastic individual who takes great pride in every task he undertakes.

He has helped us with our major website projects. The hard work he has implemented in to them has shown that he has great determination and possesses extensive knowledge of web development.

During his time with us he took on responsibilities such as front-end and back-end programming, project management and graphic design. From these roles Jacek has developed strong leadership and creative skills which he will be able to apply them in any future projects. The other employees have found Jacek to be a great team player and they felt inspired whilst they worked with him.

Jacek has a professional attitude when he dealt with clients and has left them feeling satisfied after he has listened to their technical enquiries. This displays that he has great customer service skills and is able to understand people's needs, and help them to the best of his abilities.

I highly recommend Jacek for employment. He would make a great asset to any organization.

Should you have any questions please do not hesitate to contact me.

Yours sincerely,

David Suter
Managing Director
